

Matrix 22 Harmonizer Gold Plated

The Matrix 22 Harmonizer comes with Environmental Clearing and Bottle Brush CD and One Sacred Cubit Light-Life™ Ring with one bead.

Description: One ½ Lost Cubit ring outside and one ½ Sacred Cubit ring inside. . Copper gold plated.

The "Lost Cubit" ring is derived from the sum of the polar and equatorial circumferences of the Earth, in inches, divided into the speed of light. It therefore relates to Earth natural harmonics in a special way. We believe that this discovery of Hans Becker, "The Lost Cubit" will, as research progresses, yield the secret keys to extraordinary health and extreme longevity.

The "Sacred Cubit" measurement is found carved in stone as the sum of the four sides of "The Boss" above the entrance to the Kings Chamber in the Great Pyramid at Giza. It has a natural resonant frequency of 144 MHz. This number is a harmonic of light speed in free space, related to the radius and mass of the hydrogen atom and the earth and six times the gravity factor. The Harmonizer's energetic pattern is like outward flowing ocean waves.

Matrix 22 copper, gold plated

The "Lost Cubit" copper wire construction shows exactly 33 MHz per second increase in frequency at 177 MHz. Current research and field reports, in the area of natural health practice and water improvement, strongly suggest that the subtle energy bodies of living organisms can be enhanced by these frequencies.

Extensive research and field reports indicate the following possible uses:

- Reducing toxic elements in polluted air
- Assisting in clearing earth atmosphere
- Supporting life force physically, mentally and spiritually
 - Strengthens the immune system
 - Intensifies the six senses: sight, smell, taste, touch, sound, intuition
 - Enhances thought patterns
- Balancing and harmonizing the Ethers
- Harmonizing magnetic/Geopathic grid lines
- Elevating Chi force within physical structures
- Reducing positive ions and increases negative ions
- Neutralizing effect on radioactive material*

*The degree to which the Harmonizer is able to neutralize radioactive material depends on the concentration of radioactive material and whether it is present through natural causes or waste byproduct. Regardless of the variables, the Harmonizer is an effective tool in reducing radioactivity.
