## The Story

Slim Spurling is the creator of the Light-Life Tools. He was an artist, scientist, and inventor who studied subtle energies and quantum physics (including the work of Wilhelm Reich and Nikola Tesla). The first Light-Life Ring was created in 1991. From there, his range of tools grew. His passion was to create wellness for people, specifically by reducing air pollution and restoring water and soil.

In 2001 he married Katharina Kaffl from Bavaria, Germany. She became a collaborator in his creative world of Light-Life Technology. Together they created many more Light-Life Tools. Katharina incorporated IX-EL, Inc. in 2003 to establish a worldwide distributorship for the Light-Life Tools.

Today Katharina is the president and CEO of IX-EL, Inc. Slim passed away in 2007 and his legacy of committing to bring harmony and healing to the world carries on as Katharina enthusiastically continues his teachings on applications of the Light-Life Tools. Her integrity, sense of adventure, and practical business knowledge are being fully employed as Light-Life Technology continues to expand its presence in the global arena.

## About

Our workshop is a one-day hands-on course with Katharina Spurling-Kaffl. Katharina is the wife of the late Slim Spurling, the creator of the Light-Life Tools. Slim and Katharina transformed complex scientific ideologies into easy to use tools for daily applications for your health and wellness.

During this one-day event, Katharina, an energy worker who has been working with the tools for over 20 years, will give you a hands-on experiential course with our products. We are continuously conducting research and you'll be able to engage with products that are not yet available to the public.

Upon arrival, you'll receive a workbook and a Sacred Cubit Plain Jane Light-Life Ring. During the course of the day you'll awaken all five of the senses as we explore each of the tools unique attributes. Over the course of the day you'll have the opportunity to engage with other participants and play with the subtle energies. You will be the leader of your own Empowerment Session as you feel the amazing properties of the tools as they interact with your own frequencies.
