- ❖ How to optimize plant and crop growth and much more
- ❖ What Geopathic Stress is, and how it may be affecting you **WITHOUT YOU EVEN KNOWING IT**

## THE STORY

Slim Spurling is the inventor of the Light-Life<sup>®</sup> Tools. He was an artist, scientist, and inventor who studied the art of blacksmithing for twenty years, which served as his introduction to alchemy. With this knowledge and his studies of subtle energies and quantum physics (including the work of Wilhelm Reich and Nikola Tesla), he created the first Light-Life<sup>®</sup> Ring in 1991. From there, his range of tools grew. His passion was to create wellness for people, specifically by reducing air pollution and restoring water and soil. Slim passed in 2007, and his dedicated wife Katharina continues his legacy with her loyal team, following the guidelines Slim used for their original creation. It is our intention that you learn and benefit from the Light-Life<sup>®</sup> Tools in every aspect of your life and use them to create harmony and wellbeing for your world.

## ABOUT

Our workshop is a two day event with Katharina Spurling-Kaffl, the wife of the late Slim Spurling, the inventor of the Light-Life® Tools. For the past 15 years Katharina has been an energy worker utilizing the Light-Life® Tools. After Slim's passing in November of 2007 Katharina continued with their work. With the support of her loyal team she still manufactures Light-Life® Tools according to Slim's guidelines, applying Sacred Geometry and Quantum Physics. They are also creating new Light-Life® Tools in order to facilitate the changes we as humanity are going through.

The workshop will briefly cover Geopathic Stress and why you need to know about it, as well as how to combat its negative effects on you and your environment.

Katharina will introduce the history of the Light-Life® Tools and give you an opportunity to experience them first hand. You will see new Light-Life® Tools that are only presented at workshops.

This workshop is "Hands On" with an open format. Participants will learn from Katharina and other participants as they share their experiences with these Tools.

After the applications are taught, there are opportunities for session with the Light-Life® Tools. Katharina will demonstrate one, and participants practice with each other what they have learned.

We recommend not drinking alcohol for 24 hours before and up to 48 after the workshop.
